Discussed road maintenance:

Crackfilling to be done by the County in August, is the hope. AMZ a few spots, 162nd between 18th and 30th, north half will be AMZ'd and sealcoated – expected cost \$9,000. More brushing needs to be done in a few spots throughout the summer; guardrail on a bridge has a rotten post – will get this replaced; 170th between M and Pierce cty line, ½ mile to be sealcoated as it's starting to show a lot of cracks, possibly less than \$20,000;

18th Avenue between County Road W and 162nd – widen and put shoulders down this year, replace culvert and raise the base up 8" with gravel, mill it, let it sit and then put hardener on it-if that works it will be blacktopped this fall, otherwise if it doesn't harden it will sit over the winter and get blacktopped next year, there is a possibility they can put some sort of mat under the road to help with water control as the road is very wet

160th has a culvert that will get replaced, we will get county aid to pay for half, our half is around \$9,000

Motion by Kerry and 2nd by Bob to accept the CSM for Donald & Nola Weber to split parcel.
